DETAILED ACTION

This action is in response to Applicant's amendment filed January 26, 2004.

Claims 1 and 7 have been amended.

Claim Objections

Claims 1-6 and 8-16 are objected to for containing non-elected subject matter. This objection can be overcome by Applicant limiting the claims to the reactions of species (a) and (b).

Claim 7 is objected to because of the following informalities: In claim 7, line 2, it is suggested that the word "using" be replaced with —by— for clarity. In claim 7, line 2, it is suggested that the word "comprise" be replaced with —comprises— for proper grammar.

Response to Arguments

Applicant's arguments filed January 26, 2004 have been fully considered but they are not persuasive. Applicant argues that claim 1 has been amended to delete a "preferred" feature that already forms the subject matter of claim 15. Applicant argues that claim 7 has been amended to restrict the definition of the reactions specified in the claim to ammoxidation of propylene or propane.

The objection to claim 7 has been overcome with Applicant's amendment. However, remaining claims 1-6 and 8-16 have not been limited to the reactions of species (a) and (b). It is suggested that Applicant limit claims 1-6 and 8-16 to the reactions of species (a) and (b) to overcome this objection.
